OFFICE ORDER

Sub: Reducing Regulatory Compliances Burden on Business and Citizens Ease of Doing Business (EODB), (Industries, Energy & Labour Department).....

(Priority Area (PA) No. 7 : Increase the role of empaneled Third Parties in Building Approvals and Joint Inspection).

Ref: Urban Development Department Letter No. TPS-1825/267/Case 72/2025/(Part 2)/UD-13, dated 24.09.20225

With the Central & State Government Policy of Ease of Doing Business to reduce regulatory compliance burden on business especially for Industries pertaining to Fire Safety Certificate (Provisional / Final), following directives is hereby issued to Building Proposal Department of various Competent Authorities such as Commissioners and Chief Officers in the Urban Local Bodies Planning Authorities area, Collector's in the Regional Planning Areas and Chief Executive Officer / Managing Director in the Special Planning or whatsoever designation in the Planning / Special Planning Authority area empowered to sanction the Building Plan approval to implement the self-certification fire approval by developing online fire approval system through Building Proposal Approval Management System (BPAMS-E-Fire Approval) as per the procedure laid down below.

2. Risk based Classification for Industries requiring Self certification.

As per the Schedule-I of the Maharashtra Fire Prevention and Life Safety Measures Act, 2006 and Amendment, Act, 2023 (herein after refer as "Fire Act"), the industrial are classified as Low, Moderate and High Hazard. Similarly, the same classification is done as per clause 3.1.8 of the National Building Code of India -2016 (Part 4). The classification of the building as per the hazard (low, moderate and high)

is given in the Annexure B of the Part 4. (for better understanding same is enclosed herewith as Annexure-A). (copy of Schedule-I, Annex B of Part 4 enclosed herewith)

3. For all those building classified as "Low Hazard" and having total built up area up to 2000 Sq. mtrs (building having height less than 18M) shall be self certified by the online process system (BPAMS-E-Fire Approval).

- I. **Provisional Fire Safety Approval:** While self-certifying the fire approval through the online system, the proposal shall be scrutinized through the system and fees shall be generated in accordance to Schedule II of the Fire Act. Once the fees is paid, the fire approval shall be generated. The minimum fire-fighting requirement shall be in accordance to Schedule I of the Fire Act. (copy enclosed)

The documents required for processing the file shall be:-

- a. List of raw material
- b. List of Finished Goods
- c. Process Flow Chart and brief description about process
- d. MPCB Certificate (consent to establish)

- II. **Final Fire Safety Approval:** like Provisional Fire Safety Approval, Final Approval Safety Approval shall be generated through the online system. But prior to that, joint inspection shall be carried out by Owner / Occupier & License Agency as defined under the Fire Act to ensure that all the fire fighting system as prescribed in the Schedule –I of the Fire Act has been installed by the license agency.

Note:

For all the industries where only Portable Fire Extinguisher is recommended, there shall not be any necessity to carry out joint inspection or Form A is required from License Agency. The same shall be self-certified by owner / occupier regarding provisions of the same.

The documents required for processing the file shall be:-

- a. Approved Plan (System Generated)
- b. Form-A issued by License Agencies along with list of fire fighting systems installed (except Portable Fire Extinguisher)
- c. Geo Tagging Photographs of the system and the building layout
- d. Joint Inspection Report.

- III. **Renewal Fire Safety Approval** – The Fire Act does not mandate for the Renewal Fire Safety Approval but certain statutes like Petroleum Act, Gas Cylinder Rules demands for fire renewal every year. In such cases, joint inspection to be carries out as mentioned in the Final Fire Approval and Renewal Fire Safety Approval can be generated. Otherwise, Form B shall be issued by License Agency in the month of January and July every year.

4. As the said approvals are concern with Fire and Life Safety Measures, as such the online system shall also be able to pop up minimum of 10% of the cases which shall be inspected by the local fire department and if any such proposal are found to be non-complied with the necessary fire fighting system or in violation of any norms, then such proposal to be rejected and treated as cancelled. Suitable action may be taken by the competent authority for such violation as per the provisions of the Fire Act.

The said order shall be implemented immediately.

(S S Warick)
Director
MF&ES, Mumbai.
